

Call for Papers

Austrian Labor Economics Workshop 2025

Friday, 7. November 2025

Venue: CEU AUDITORIUM

Quellenstrasse 51, 1100 Vienna

The 9th Austrian Labor Economics Workshop will be held at CEU in Vienna this year.

The aim of the workshop is to provide a forum for discussion of recent research projects in the broad field of labor economics. Contributions of empirical and theoretical studies are welcome, including topics related to labor markets, social policy, income distribution, migration, education, health, or gender economics. We want to bring together researchers working with a wide range empirical and theoretical approaches and adopting micro- and macro-economic perspectives.

The workshop offers room for an open and collegial discussion and also welcomes preliminary or controversial research.

Please send a copy of your completed paper or an extended abstract per email to laboreconomicsworkshop@ceu.edu

The deadline for submissions is 30 September, 2025.

The selection of contributions by the organizers will be completed by mid-October and the final program will be published around the end of October 2025.

We are planning presentations of about 20 minutes per paper plus some time for discussion. The exact number of presentation slots and the time frame will be determined by the organizers.

Registration for presenting and non-presenting participants will be open starting in October 2025. Detailed instructions will be announced later.

We are looking forward to welcoming you in November!
