

EMU Forum 2016

Completing Economic and Monetary Union

November 24 and 25, 2016

Oesterreichische Nationalbank (OeNB)
Otto-Wagner-Platz 3, 1090 Vienna, Austria

FORUM AGENDA

The EMU Forum 2016 brings together academics, experts and policy makers to debate about the political economy of the euro area. The resilience of Economic and Monetary Union (EMU) hinges on its capability to reduce and distribute risks among its member countries. The rationale behind deepening EMU is to enable long-term convergence based on ex ante coordination and swift crisis management by strong institutions. Drawing on the Five Presidents' Report on "Completing Europe's Economic and Monetary Union," the forum will explore ways to bolster the single currency by promoting economic, financial, fiscal and political union.

- The evening session of the first day of the forum will offer **outside perspectives** on EMU reform needs from pre-in and opt-out countries, given topical economic and political challenges.
- The morning session will elaborate on how **economic union** may contribute to a real convergence path, with a particular focus on social investment and wage coordination.
- The first session in the afternoon will explore to what extent **financial union** will be able to achieve private risk-sharing through integrated banking and capital markets.
- The second afternoon session will look into the prospect of a **fiscal union** with a treasury for the euro area and the chances of achieving public risk-sharing, a reduction of risk and joint debt management.
- A final policy panel will discuss the chances that **political union** could improve the democratic legitimacy of EMU by creating an environment where member states gain sovereignty by sharing it.

This event, organized by the OeNB together with the Euro50 Group and the Vienna Institute for International Economic Studies (wiiw), builds on last year's workshop "Toward a Genuine Economic and Monetary Union".
