Workshop on Corporate Governance in Network Industries

October 29th 2015, Vienna Austria
Clubraum (LC) Wirtschaftsuniversität Wien (WU)

Overview

Network industries offer a highly interesting research area, as business operations generally need to account for both competition and regulation. Adequate performance is only reached by balancing economic efficiency and reasonable profits with public interests and investment needs. Especially the relationship between liberalization and regulation of monopolies or monopolistic bottlenecks dealing with public needs creates multi-disciplinary research questions related to corporate governance. In particular, market-oriented corporate governance mechanisms might not perfectly work in a partly monopolistic environment. The workshop intends to address key issues in network industries arising from the intersection of regulation and competition on the one hand and corporate governance on the other hand.

Program

9.00h	Welcome Address
9.15h	**Laura Rondi**, Carlo Cambini, and Sara De Masi "Incentive Compensation in Energy Firms: Does Regulation Matter?"
10.15h	**Eri Nakamura** and Fumitoshi Mizutani "To What Extent Do Public Interest and Private Interest Affect Regulations? An Empirical Investigation of Firms in Japan"
11.15h	Coffee Break
11.45h	**Mario Liebensteiner**, Klaus Gugler, and Stephan Schmitt "Vertical Disintegration in the European Electricity Sector: Empirical Evidence on Lost Synergies"
12.45h	Concluding Remarks

For registration send a short email to **CGNI@wu.ac.at** by 15th of October. Detailed and up-to-date information will be provided at http://www.wu.ac.at/icg/cgni.
