Call for papers FairTax Conference

EXTENDED DEADLINE!

FAIRTAX

FairTax is a cross-disciplinary four year H2020 EU project aiming to produce recommendations on how fair and sustainable taxation and social policy reforms can increase the economic stability of EU member states, promoting economic equality and security, enhancing coordination and harmonisation of tax, social inclusion, environmental, legitimacy, and compliance measures, support deepening of the European Monetary Union, and expanding the EU's own resource revenue bases. Under the coordination of Umeå University (Sweden), comparative and international policy fiscal experts from eleven universities in six EU countries and three non-EU countries (Brazil, Canada and Norway) contribute to FairTax Research

“Options for an EU Tax as an EU Own Resource”

Organised by Austrian Institute of Economic Research WIFO Vienna (Austria), Mendel University Brno (Czech Republic) and King's College London (United Kingdom).

Vienna, September 19, 2016

KEYNOTE: LUCAS CHANCEL (PARIS SCHOOL OF ECONOMICS AND IDDRI, PARIS), “SUSTAINABILITY-ORIENTED TAX POLICY - IMPLICATIONS FOR FINANCING THE EU BUDGET”

The objective of the FairTax conference on “Options for an EU Tax as an EU Own Resource” is to promote the exchange of ideas among researchers working on reform options for the EU system of own resources in general and for own EU taxes to substitute national contributions by EU member states in particular. Hereby not only conventional tax policy criteria, also based on the main propositions of the fiscal federalism literature on the optimal assignment of taxes with a multi-level governance structure, should be considered. In addition, evaluation criteria that capture the four dimensions of sustainability relevant to revenue/tax systems (economic, social, environmental, and cultural/institutional sustainability) are of interest.

The project is funded by the European Union's Horizon 2020 research and innovation programme 2014-2018, grant agreement No. FairTax 649439

We are looking forward to receiving contributions analysing all the aspects connected with possible candidates for an EU tax as an EU own resource to finance the EU budget:

- potential effects on sustainable development
- gender impacts
- institutional implications
- regional distribution of the tax burden
- budgetary implications

The conference is organised by Mendel University, King's College London and WIFO and will be held in Vienna.

Selected papers will be included in a conference volume on "Options for an EU Tax as an EU Own Resource".

Abstracts and Papers should be sent in PDF format to ann.mumford@kcl.ac.uk, danuse.nerudova@mendelu.cz, or margit.schratzenstaller@wifo.ac.at.
